

## SCSD2 Parents

### Welcome to Harmony PUSH Notifications

When you complete your online registration paperwork, you can sign up for “push notifications” where you customize **WHAT** information you want and **WHEN** you want it! Push to your cell phone. Push to your email. Push any information, anywhere, anytime you want!

1. Using your Harmony password, log in at home during the online registration window or at school during your onsite registration.
2. Complete your online forms. At the bottom of the online form list, you'll see a My Notification Profile option.

3. Select that option and start customizing your student's PUSH information! See the example on the right side of this page.
4. If you need to change your PUSH options, you can do so anytime by logging in to Harmony and editing through the My Notification Profile link.

5. Contact your building administrator if you need assistance!

The screenshot shows the 'Edit Profile Settings' page in the Harmony system. It includes sections for account nickname, attendance options, grade options, discipline options, lunch account options, library options, and notification options. A 'Save' button is at the bottom, and a 'Home' link is at the bottom right.

**Harmony**  
**Edit Profile Settings**
