

ILEARN @ SCSD2

iPads have arrived! Now what?

Scott County School District 2 offers 21st Century tools to support student learning. Now that the iPads have arrived in your building, you may have a few questions. This newsletter will answer your questions and provide information about our policies and expectations.

IMPORTANT FACTS TO REMEMBER:

1. Is my child protected and monitored?
2. Will my child be able to do his/her homework if we don't have internet access?
3. Who is responsible to pay for damage caused by misuse?
4. Who else can use this iPad?
5. Will my child bring the iPad home each evening?

Your child's teacher recently went over the Responsible Technology Use Agreement training with him/her. You can review the highlighted material to the left. If you have any questions, the presentations can be found by visiting www.scsd2.k12.in.us and choosing your child's school and then the "Technology" tab on the bottom left.

If you need access to the internet, there are several free public access sites in Scottsburg. You can access it at McDonalds, The Coffee House, Burger King, the public Library, the Courthouse lawn, and within 25 feet of any school building.

Students at SCSD2 elementary schools are learning and growing with today's world. Through a variety of experiences, your child will become more familiar and proficient at using the technology. These devices are not toys, and are not intended to be used in that way. Instead, our teachers create innovative lessons that incorporate the use of technology. This way, your child learns how to be a productive citizen in today's world of technology, while also learning the academic skills that he/she needs

Basics: Devices at School

- 1) In Kindergarten- Second grade your child will leave their iPad Mini at school.
- 2) iPads are protected by Otterbox cases, which should never be removed.
- 3) Take care of your device-No Stickers, marks, or scratches
- 4) iPads are assigned to each student- he/she should be the only one using it.
- 5) iPads will be charged and ready for your child

Basics: Taking Devices Home

- 1) In Third- Fifth grade your child will bring their iPad home each night.
- 2) iPads are protected by Otterbox cases, which should never be removed.
- 3) Take care of your device-No Stickers, marks, or scratches
- 4) iPads are assigned to each student- he/she should be the only one using it.
- 5) Charge the iPad fully each and every night
- 6) Do not expose the iPad to extreme temperatures of moisture
